

Wireless PA Amplifier

Model Number: A210

The A210

The IVy Automation ultra compact A210 wireless PA amplifier bring to life portable high fidelity. This slick, 5 pound dynamo features 20 Watts (RMS) of output power combined with multiple device inputs that include both wireless and fixed link sound inputs. The units comes standard with 1/8" mono jack inputs ready to accept a wireless microphone, a lavalier lapel microphone, a headphone mike, an MP3, a walkman™ or a CD player. An additional 1/8" mono output jack enables out put to a remote powered auxiliary speaker. The microphone and CD can be used simultaneously allowing for portable disk jockey and Karaoke gigs. This is the perfect product for family parties, guided tours, local town hall meetings or spontaneous social gatherings. In situations where larger spaces require a greater projection, several A210's can be used together to provide a broader range of coverage. The removable shoulder strap provides a convenient method of transporting the product.

CAUTION: Electricity and water do not mix. This equipment like all electrical equipment can cause severe injury. Exercise caution when operating this equipment outdoors, in wet weather or near water.

Wireless PA Amplifier

Model Number: A210

Specifications

- Operating Frequency: Band: 745 – 754.3 MHz UHF Band
- Frequency Response: 50Hz to 16KHz +/- 3dB
- *Output Power: 20 W RMS / 4 ohm load
- Sensitivity: 10dBu
- Transmission Range: 200' (61Meters)
- Channels: 32 Available, switchable Channels
- Battery Life: 4+ hours operation per charge
- Local & Remote Battery Life Remaining Display
- High or Low Tone Selection
- Power: Internal Rechargeable Battery (12V, 1.9AH) Integral mains recharging cord (100-240VAC 50/60Hz) Optional DC Adaptor input 15VDC @ 2ADC
